Graduation	IIT Bombay	IIT Bombay	2025	8.96

Hi, I'm Yatri.

A designer curious about human behaviour, grounded in research and drawn to quiet observation.

Key Projects

Paalan

2026

Interaction Design · Guide: Prof. Yohan Engineer

- Applied **contextual research**, competitive analysis, and stakeholder interviews of **15+ participants across 5-6 animal shelters and NGOs** to map end-to-end caregiving workflows.
- Built Paalan, a care management system for animal shelters by working across the pipeline from **information architecture** through **wireframing**, **prototyping**, **usability testing**, **branding**, and front-end development using vibe coding.

GPay for Emergent User Transactions

2025

UX Design Sprint · Guide: Prof. Anirudha Joshi

- Ran a **4-day design sprint** conducting **7-8 contextual interviews** with **novice UPI users** in Phulenagar, studying the **mental model**, reframing the brief from **making the first payment easy** to making the tenth payment feel normal.
- Designed a staged **voice-guidance system**, alongside a **Human Companion feature enabling trust** and reform in the mental understanding of the system.

Google Stitch Redesign

2026

Visual Ergonomics · Guide: Prof. Wricha Mishra

- Led a full **ergonomic evaluation** of Google Stitch's AI-generation interface - HTA, SHERPA, Heuristic Evaluation, CREAM, SASSI, NASA-TLX, and Eye Tracking across novice, intermediate, and expert users.
- Diagnosed Google Stitch through testing a strong surface-level 97.14% task completion rate and a **novice SUS score of 70** while **identifying unresolved frustration points** for expert users around export and backend workflows that shaped the redesign by **rapid prototyping** using AI and Vibe coding.

Trail

2026

Self-Initiated Project

- Designed Trail, an **AI system** that automatically groups your scattered digital activity files, tabs, notes around what you're actually working on, grounded in **user-centric computing research**.
- Synthesizing **activity research** and **structured ideation** grounded in HCI research and user interviews; designed full interaction system across **multi-surface interaction** to replace manual context-tracking behavioral habits.
- Rapid Iteration method** by treating code as a design material, **vibe coding** directly with Claude Code and Antigravity

The Pacific Cascade

2026

Pacific DataViz Challenge Submission

- Built an **interactive climate data visualization** for **22 Pacific Island nations**, in D3.js and p5.js using vibe coding, to unify **25 years of datasets** from the Pacific Data Hub

Skills

Core: UX Research, Contextual Inquiry, Affinity Mapping, Personas, User Flows, Information Architecture, Wireframing, Prototyping (AI & non-AI assisted), Vibe Coding, Heuristic Analysis
Visual: Editorial Design, Typography, Design Systems
Tools: Figma, Framer, Cursor.ai, Antigravity, VS Code, Claude, Gemini, ChatGPT, Adobe Creative Suite, Procreate, Godot, Blender, Jitter, QGIS, and other context-dependent AI tools

Portfolio

Achievements

- AIR 9 UCEED 2024
- AIR 5 NID Prelims 2024
- AIR 9 NID DAT 2024

Work Experience

IDIN X DigiCell IITB

May 2026 - July 2026

UX Design Intern under Prof. Anirudha Joshi

- Redesigned workflow and Hostel Management Portal** for IIT Bombay's 21 Hostels, in review for rollout.
- Executed an **extensive user study with 23 users** including staff and students to make a multi stakeholder system.
- Designed the system that works for **12000+ students and 84+ Management Staff** in hostel unit

TriNANO Technologies, SINE IIT Bombay

Sep 2025 - Feb 2026

Design Intern

- Redesigned the Startup's **website UX**: information architecture, user flows, and hi-fi Figma prototypes, proposed several changes are **now live** on the revamped website.
- Contributed to **product design discussions**, while also making many branding collaterals.

Placement Cell IIT Bombay

2026 - 27

Internship Coordinator

- Coordinated internships for **2,000+ students with a 24-member team**, streamlining communication and support, while building relationships with **250+ companies and 50+ global universities** to secure diverse opportunities representing IDC school of Design.

Cultural Secretary

2025 - 26

IDC Council

- Led cultural events and programs for the IDC student community, coordinating with stakeholders and event managers for an **audience of 250+ students**.
- Led **branding** alongside other designers for Design Degree Show 2026 with a **footfall of nearly 1,000+**, contributing to the visual identity and supporting the event execution and selling more than **70+ merch worn by many**.

Certificates

Google UX Professional (2/8)

IBM Generative AI for UI UX Design (3/3)

Co- Curriculars

- Inter IIT Cult Meet 7.0: Crafted 15 ramp costumes with a 10-designer team for Celestial Glamour winning **2 gold medals, Fashion Contingent Cup**.
- Submitted **Entry in Pacific DataViz Challenge 2026**.
- Miniature Art**: Designed and sold hand-painted earrings, **sold out stall on day 1 at DDS '25**.
- Volunteered** at Chetan Balwadi, facilitating art, storytelling & play-based **learning activities for children** in regional language to foster cognitive development.
